The marina at the Curwensville Lake Recreation Area for the 2022 operating season is subject to the following conditions:

1. The permittee hereby agrees to hold Curwensville Lake Recreation Area (CLRA) Curwensville Lake Authority (CLA) and the U.S. Army Corps of Engineers (Corps) harmless and indemnify CLRA, CLA and Corps against any and all claims, demands, and/or actions, including counsel fees, which he/she may have or make or which any other party, person or permittee may have or make, based upon or arising out of or incident to permittee's use or occupancy of the property by his/her permit. It is understood and agreed by the permittee that this permit is for a dry-dock space only, and that such space shall be used by the permittee at its sole risk.
2. The permittee must remove their watercraft no later than November 1, 2022. This date is subject to change depending on conditions beyond CLA/CLRA control. Permit holders will be notified of any changes.
3. The permittee shall not solicit, advertise, or place signs on federal property.
4. The permittee shall be responsible for any damage due to his/her negligence or carelessness.
5. The permittee shall not assign or sublet this permit. If the permittee sells his/her boat, the dry-dock site permit associated with said boat may be transferred to the new owner for the remainder of that current season. The park manager must be notified so new paperwork can be completed.

6. The permittee hereby releases and remises CLRA, CLA and Corps from any responsibility to care for permittee's watercraft (including its gear, equipment, and contents) and he/she also hereby releases and waives any and all claims he/she might make or have for any losses or damages of any nature whatsoever to said watercraft, howsoever occasioned.
7. **THE CORPS RETAINS THE RIGHT TO FLOOD THE AREA AT ANY TIME WITHOUT NOTICE AND SHALL NOT BE RESPONSIBLE FOR ANY DAMAGES TO THE WATERCRAFT INCLUDING ITS GEAR, EQUIPMENT AND CONTENTS.** CLRA, CLA, and Corps are not obligated to notify permittee in the event of flooding.
8. During drawdowns, improvements or repairs to the impoundment or the structures in the boat launch area, the permittee may be required to remove the watercraft without remuneration and within the time specified by the Corps.
9. The permittee will comply with all state, federal, and local laws, rules, and regulations.
10. The permittee shall comply with all directions of the CLA or its authorized representative.
11. The CLA or its authorized representative shall have the right to terminate this permit for permittee's breach of any terms or conditions set forth by the CLA or the Corps.
12. Concerns and/or complaints should be brought to the attention of the park manager.
13. In the event that the permittee does not remove the watercraft at the end of the term specified, the CLA retains the right to remove the watercraft from the mooring space and the permittee shall be liable for the cost of removal and a storage fee, if applicable. CLA or its employees shall not be responsible for any damage to the watercraft if it is removed and placed in storage.

The permittee hereby acknowledges that he/she has read this permit application and understands the conditions of its watercraft mooring statement.
